Summary of results from Session: "Improve Core Contribution workflow" at Developer Days 2018 (https://t3dd18.typo3.org/schedule/#c813)

Collection of Areas / Tasks of Contribution

Summary: List of top 5 areas / tasks by vote
The votes indicate importance of area and how much it is in need of improvement.

1. Contribution guide
2. Improve exception message and Wiki
3. Forge: write and manage issues
4. Teaching (includes bootup day, review Friday, core sprints, help in Slack)
5. Development environment

Collection of Ideas for contribution

Summary: List of top 5 ideas by votes:
1. Structure information and make it available in 1 place:
   a. single source of truth (information is currently spread out too much in blogs, docs, wiki, etc., should be available in one place)
   b. Landing page on typo3.org
2. Core best practices: 1 officially recommended way to do things (other methods are still possible but there is one recommended and officially supported way)
3. Template + guide for writing issues
4. Contribution video for dummies
5. 3 step Infographic "How to contribute"

Todo list

Action	Who	Until when	Status
Infographic Video concept	Harry	July 31, 2018	
Initiate discussion about "best practices" TYPO3	Harry, Daniel, Sybille		
Find someone to write testimonial how they contributed on blog	Daniel, Sybille		
Talk with Marcus Schwemer about writing interviews with core team members how they started contributing	Sybille	During DevDays	Done
"How to write issue" in Contrib guide	Rick	During DevDays	Done
